

Jose Wilhelm

Web Developer / Backend Developer

Highly passionate web developer experienced in the design, development, maintenance, and improvements of features and functionalities on the backend like servers, APIs, relational and non-relational databases, and serverless cloud infrastructure on AWS. Experience building user interfaces, responsive designs, and single-page applications on the frontend. Experience with multiple languages like Python, Go, JavaScript, and SQL. Bilingual in both Spanish and English.

EDUCATION

Data Analytics Professional Certificate Google / Coursera

04/2021 - 11/2021

Courses

- Data collection
- Data cleaning
- Data analysis
- Data visualization

Bachelor of Engineering Universidad del Zulia

07/2013 - 10/2019

PERSONAL PROJECTS

Dollar Forecast (01/2024 - Present)

- Website: <https://dollar-forecast.vercel.app/index.html>
- Project's Blog: <https://joselws.hashnode.dev/dollar-forecast>
- Full-Stack web development, HTML, CSS, JavaScript, Python, AWS, serverless, DynamoDB, Docker, Machine Learning, web scraping

WORK EXPERIENCE

Software Engineer Cheetrack

03/2022 - 10/2023

Remote

Web application for multi-platform message management and automation, mainly WhatsApp.

Achievements

- Implementation of most of the website's graphs
- Implementation of its first feature written in Go
- Documented its API with OpenAPI specification
- Development of API testing suite with Postman
- Development and integration of multiple Shopify features

TECHNICAL SKILLS

Python

AWS

JavaScript

SQL

Go

NoSQL

HTML

CSS

Docker

OpenAPI

TypeScript

Git

Linux

ACHIEVEMENTS

Honors student (07/2013 - 07/2014)

One of the top 10 students of my University during this period.

CERTIFICATES

Supervised Machine Learning: Regression and Classification (01/2023 - 02/2023) [🔗](#)

Data Analysis with Python (01/2022 - 02/2022) [🔗](#)

Full-Stack Web Development with React (04/2021 - 08/2021) [🔗](#)

3 course specialization covering building user interfaces with Bootstrap and React, and backend development with NodeJS, Express, and MongoDB.

Data Analysis with R (02/2021 - 05/2021) [🔗](#)

3 course specialization covering probability, descriptive and inferential statistics, and linear regression and modeling.

LANGUAGES

Spanish

Native or Bilingual Proficiency

English

Full Professional Proficiency
